

Trap and Skeet Range Rules

Firearm Handling

- Loaded Firearms must be pointed down range at all times.
- The action of all firearms must be open when the shooter is not shooting.
- When shooting trap, only one shell at a time may be loaded unless shooting doubles.
- When shooting skeet, load only the required number of shells for a given station/shot (2 shell maximum).
 - At Station 8, shooter may not pivot or change the direction that they are facing until their firearm is completely unloaded and the action is open.
 - Load only one shell at any time. No doubles allowed on Station 8.
- Firearms must be unloaded when walking from station to station.
- When shooting trap, shooters in the same squad may not share a firearm. Each shooter is to have their own.

Firearm & Ammunition Restrictions

- The trap and skeet ranges are to be used for shotgun shooting only. Discharge of any other firearm is strictly prohibited.
- Prohibited Loads on the Skeet Range: No “high brass/magnum loads” or shot sizes larger than 7-1/2.

General Restrictions:

- Any present Officer or Director has the authority to eject anyone if the rules are not followed.
- Any given person will not be allowed to use a firearm if he/she appears to be under the influence of a drug, alcohol, or medication that may impair their judgment.
- Offensive conduct is not permitted; shooters should take our younger sportsman into consideration.
- Individuals under the age of 18 years must be under the direct supervision of a responsible adult at all times, and wear hearing/eye protection when at the firing line. Running, horseplay, climbing, etc. will not be tolerated.

SAFETY IS EVERYONE’S BUSINESS!

Eye and Ear Protection is highly recommended

Aliquippa Bucktails is not responsible for any ricochet or personal harm

TREAT THE RANGE AS IF YOU OWNED IT..... YOU DO!
